Walter brings to the course his twenty years of experience in studying and stimulating the intelligences in the classroom. His Multiple Intelligence Pages at the Surfaquarium <<http://surfaquarium.com/MI/>> have long been recognized as an authority on the subject, and his work with audiences around the nation has drawn acclaim and appreciation.

Each week students will work with Walter to complete course readings, participate in online discussion based on those readings, and complete assignments which build towards a course project for the course: a collection of resources which accommodate each of the nine intelligences.

Course registration is \$50.00. Upon successful completion of the course each participant will receive a certificate for 40 seat hours of classwork.

They say that you respect your learners, and you deserve all their respect. Your course benefits me a lot in my M.A. work, not only from the weekly readings but also from sharing with classmates. It is the first experience for me to take a course online and it has been a good and successful one."*
